Gentlemen:

Attached is our draft review of HDOH's NPDES permitting program for your review. Thanks so much for your help in compiling the information about permits that we reviewed. As you will see, the review is generally very positive. There's a few areas to improve as identified in the action items section, and we would appreciate your review and comments on the draft review documents. Please let me and/or Elizabeth know if you have questions or want to discuss the report.

Thanks
